

CDM/ISEA Working Group Meeting

Standardization Group

*Roles and
Responsibilities*

Presented by:

*Gary Wasmer, AMSEC LLC
(CDM) and Stephen Hogan,
NSWC (ISEA)*

Background

- Formed in May of 1999 at the initial CDM/ISEA Workshop
- Currently comprised of:
 - 10 CDM Representatives
 - 4 ISEA Representatives
 - 6 NAVSEA/Fleet/ILO Representatives

Achievements

- Developed a matrix of CDM and ISEA responsibilities
 - Includes Initialization processes
 - Includes Maintenance processes
 - Includes Modernization processes
- Defined and documented the Database Reconciliation Process (DBR)

Achievements (continued)

- Drafted the initial Work File Submission specification for use by an ISEA

Short Term Goals

- Refine and solidify the groups mission statement
- Verify the accuracy of the CDM/ISEA roles & responsibility matrix
- Identify the governing directives for each role and area of responsibility

Long Term Goals

- Identify any redundancies & voids in the SCLSIS process based on matrix analysis **ECD - TBD at this meeting**
- Identify the necessary corrective action to resolve problems identified during the analysis. **ECD - TBD at this meeting**
- Make the necessary recommendations to the cognizant activity as needed to implement those actions. **ECD - TBD at this meeting**

Long Term Goals (continued)

- Finalize the Work File Submission specification and submit to NAVSEA for review and implementation.

ECD - March 31, 2001

- Finalize the Database Reconciliation (DBR) specification and submit to NAVSEA for review and incorporation into Technical Specification 9090-700() ECD -
March 31, 2001
